

Interview Opportunity *Can clean air and wood stoves co-exist?*

WHO:

John Gulland, Director of the Wood Heat Policy Institute

WHAT:

Mr. Gulland is available to speak to the following points:

- Are wood burning stove bans necessary?
- What is the difference between good wood burning (no smoke) and bad wood burning (lots of smoke)?
- Why aren't the federal and provincial governments doing more to support good wood burning?

The Wood Heat Policy Institute (WHPI) supports the public interest in wood heating and advocates for the responsible use of this important renewable energy resource. WHPI is a source of credible information and analysis of wood heating related issues. It also supports government and non-governmental organizations in policy development related to wood heating. The Institute is an outreach initiative of the Wood Heat Organization (WHO). WHO has provided independent, non-commercial advice to householders interested in the use of wood heat since 1996.
