***Niagara Region gets greener with launch of  
PenFinancial GreenSaver Home Improvement Loan***

(Welland, August 19th, 2009) Continuing its 25 year environmental mission to make homes across Ontario more energy efficient, GreenSaver has partnered with PenFinancial Credit Union to offer the new *PenFinancial GreenSaver Home Improvement Loan*, the first of its kind in the Niagara Region.

PenFinancial hosted a welcome reception for Climate Action Niagara and launched the new green loan on Wednesday, August 19<sup>th</sup> in Welland. Vladan Veljovic, President and CEO of GreenSaver and Jody Vizza, Marketing and Business Development Manager at PenFinancial were present. Senior executives from Climate Action Niagara (CAN), GreenSaver's local partner providing ecoENERGY assessments in the Niagara Region were at the launch.

The *PenFinancial GreenSaver Home Improvement Loan* makes low interest loans available to any GreenSaver customers that conduct a GreenSaver energy assessment—from ecoENERGY to the GreenSaver Solar Audit. The current variable GreenSaver Loan rate is 4%. Upgrades amounting \$10,000 would cost \$209 in interest in 1 year\*. Much of that interest cost will flow back to home owners through ecoENERGY's rebates and the energy savings.

"We wanted to help make energy efficiency more affordable for our community," says Jody Vizza, Marketing and Business Development Manager at PenFinancial, "With the current rebates available as well as the home renovation tax credit, now is the time to make upgrades and our new loan will make retrofits more affordable for Niagara residents."

"PenFinancial shares our vision of helping make energy efficiency a reality for many," says Vladan Veljovic, President and CEO of GreenSaver. "This new loan will enable more people to make home upgrades now and start saving energy sooner. It will create a demand for more green jobs and overall, encourage an even greener Niagara Region."

Along with CAN's efforts and track record of greening all aspects of its community, the *PenFinancial GreenSaver Home Improvement Loan* will further reinforce GreenSaver's mission of "Saving the Planet, One Home at a Time".
