Background

360 Energy's Certification in Energy Excellence Program (CEE) identifies leaders in sustainable energy management. Companies who succeed in obtaining the CEE award have demonstrated energy performance improvements over the last 3 years, and have adopted a structure to continue to improve their energy management performance over the next 3 years. The CEE program creates a focus on controlling and reducing energy, which is beneficial for the environment. By going through the Certification in Energy Excellent Program, St. Mary's Cement was able to save \$550,000 annually.

St Marys Cement, Bowmanville plant was established in 1968. St Marys Cement Inc. is a leading manufacturer of cement and related construction products in the United States and Canada. Headquartered in Toronto, Ontario, Canada, St Marys Cement Inc. supplies cementitious materials to the Great Lakes Region and is also a significant producer of concrete and aggregates to the Ontario market. St Marys Cement Inc. is a wholly-owned subsidiary of Votorantim Cimentos, an international cement manufacturer based in Sao Paulo, Brazil.

360 Energy Inc is one of North America's leading energy services firms based in Burlington, Ontario. They have been providing customized energy solutions for more than ten years to organizations across North America. www.360energy.net
