## **SunEdison President will be available for media interviews**

**SunEdison President Carlos Domenech will be in Toronto for the CanSIA Solar Conference, and available for interviews. Mr. Domenech can speak to the following points:**

- Details of the First Light Solar Park, a partnership between SunEdison and SkyPower Corporation
- SunEdison's commitment to creating jobs in Ontario
- MEMC's acquisition of SunEdison

### **To arrange an interview with Mr. Domenech, please contact:**

**Brad Oswald, Marketing Manager, SunEdison**

**Phone:** (240) 338-1979 (onsite cell-phone)

**Email:** boswald(at)sunedison.com

The Canadian branch of solar electricity company SunEdison has partnered with SkyPower Corp. to build Canada's first ground mounted photovoltaic solar energy park.

Named First Light, and located in Stone Mills, Ontario (just north of Napanee, between Kingston and Belleville), the project is expected to generate more than 10 million kilowatt hours of electricity – enough to power nearly 1,000 homes – in the first year of operation.

### ***About SunEdison***

*SunEdison is North America's largest solar energy services provider. The company finances, installs and operates distributed power plants using proven photovoltaic technologies, delivering fully managed solar energy services for its commercial, government and utility customers. In 2008, SunEdison delivered more kilowatt hours (kWh) of energy than any other solar services provider in North America. SunEdison is a fully owned subsidiary of MEMC, an S&P 500 company and a leading manufacturer of silicon wafers for the solar and semiconductor industries. For more information about SunEdison, please visit [www.sunedison.com](http://www.sunedison.com)*
