Federal budget dollars flow for the ecoENERGY home retrofit program

GreenSaver, an environmental leader providing ecoENERGY assessments, is available to comment on what it means for Canadian home owners and the environment now that the Federal government has announced an additional \$80 million for the ecoEnergy Retrofit -- Homes Program.

They can comment on the following points:

- GreenSaver's practical experience with ecoEnergy, based on over 40,000 energy audits completed
- Importance of energy efficiency and the ecoEnergy Retrofit – Homes Program
- How Canadian home owners can access the ecoEnergy Retrofit – Homes Program
- GreenSaver's recognition of Federal government's role in for encouraging energy efficiency
- How this program will continue to build a thriving green workforce

“GreenSaver recognizes the Federal government's support for energy efficiency in Canadian homes is one of the most effective use of public stimulus funds. An energy efficient home is money saving, increases comfort and contributes to a better environment, while employing the local workforce. GreenSaver encourages all home owners do an energy audit, retrofit their homes and start saving money today.”
