**April 12, 2013**

**Elizabeth May, Jane Sterk and Dr. Alexandra Morton host  
*Salmon Confidential* screening in Sidney on April 20<sup>th</sup>**

(Sidney, BC) On April 20 Elizabeth May (MP for Saanich-Gulf Islands and national Green Party leader), and Jane Sterk (BC Green Party leader and candidate for Victoria-Beacon Hill) join biologist Dr. Alexandra Morton in presenting the new bio-political documentary *Salmon Confidential* in Sidney, BC. The film will be a launch pad for a lively discussion about salmon, economy, politics, science, and this upcoming provincial election.

To date, the Green Party is the only provincial party that has supplied a substantive response that would actually protect wild salmon as the scientific evidence mounts that the salmon farming industry represents serious harm to the valuable wild salmon economy of BC. Their policy position is to remove the salmon farms from wild salmon migration routes. The BC sportfishing industry contributes ten times the revenue to the province than the salmon farming industry and does not destroy fishing grounds with industrial sewage while doing so.

Join Alexandra Morton, Elizabeth May, Jane Sterk and filmmaker Twyla Roscovich for an enlightening and informative evening.

**When:** Saturday, April 20, 2013, 6:30 PM

**Where:** Mary Winspear Centre BC in the Charlie White Theatre, 2242 Beacon Avenue, Sidney, BC

Admission by donation or tickets can be reserved through the box office for \$3:
