

Elocity joins the Ontario government's Silicon Valley Auto-tech Trade Mission to showcase its innovative EV charging demand management technology

(Toronto, Canada – March 4, 2021) Don Huff, Chair of Elocity's Advisory Board, stated " Elocity (<https://elocitytech.com/>) is honoured to be selected to join Ontario's latest trade mission. Elocity is excited about this opportunity to work with leaders in the Silicon Valley EV ecosystem and showcase its flagship HIEV™ managed charging technology. Elocity's technology brings electric utilities, EV drivers and businesses together into a connected and optimised EV world.

Company founder Sanjeev Singh observed, "Elocity is working with many utilities and businesses across the globe focused on smart management of EV chargers and charging demand for sustainable adoption of electric vehicles. Our technology substantially reduces EV related grid failures and need for new infrastructure investment. With California on the forefront of EV adoption, we see the Ontario trade mission as a great opportunity to work with industry leaders."

Elocity is a Cleantech company based in Toronto, ON. Elocity was founded by industry veteran Sanjeev Singh, who has significant domain and technical expertise through working with electric utilities and technology companies globally.
