

RESOLUTION

Whereas on the date of Saturday, April 14th, 2012, a historic meeting took place between Lake Nipigon First Nations and Matawa North South Alliance, as well as municipal leaders from across the Northwestern Ontario region, to discuss the Ring of Fire development. Whereas the federal and provincial governments have failed to adequately consult First Nations and municipalities in the north about their plans for economic development, we the undersigned, hereby support the following:

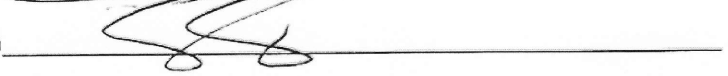

Resolution 1: The preferred site for the ferrochrome processor be located in the property known as Exton, in the Municipality of Greenstone;

Resolution 2: We also hereby support the Marten Falls First Nation north-south route.

Both resolutions will offer well needed social and economic development.

The following assertion statement is a framework plan not offered by federal or provincial governments and other territorial provinces. This will offer future benefits to the undersigned communities and other First Nations and municipalities in the North. We welcome and encourage other First Nation and municipal community leaders to become future signatories to these two resolutions and this assertion statement.

Chief Elijah K Moonais , Marten Falls First Nation 

Chief Sonny Gagnon, Aroland First Nation 

Chief Valda Lesperance, Biinjitiwaabik Zaaging Anishinaabek
